

## **2019 ISPRS Workshop on Remote Sensing and Synergic Analysis on Atmospheric Environment**

- 25-27 October 2019, in Nanjing, China

The 3rd ISPRS Workshop on Remote Sensing and Synergic Analysis on Atmospheric Environment was held in Nanjing, China during Oct. 25 and 27, 2019. It was organized by the ISPRS Working Group on Remote Sensing of Atmospheric Environment (ISPRS WG III/8) and National University of Defense Technology. There were nearly 300 attendees from 30 organizations of 6 countries/regions. Total 93 oral presentations and 110 posters were arranged on the themes related to WG themes. 38 selected submissions are published at the ISPRS Archives (Volume XLII-3/W9, 2019). Coming ISPRS Congress in Nice was introduced in the opening ceremony by Prof. Jiang Jie, president of ISPRS TC III.

Kai Qin

Associate Professor, China University of Mining & Technology  
Secretary, ISPRS WG RSAE III/8
