

## THE ISPRS FOUNDATION

The ISPRS Foundation (TIF) is a non-profit entity established in 2003 and managed by a Board of Trustees. It responds to ISPRS grant needs that are identified by the ISPRS Council. Grant recipients are active participants in the ISPRS and ISPRS-sponsored events, presenting posters and oral presentations, publishing in the ISPRS Archives and Annals, and joining both technical discussions and cultural exchanges. While their experiences may sometimes lead to academic and professional opportunities, they *always* lead to new friendships and exposure to the latest research and advancements in geospatial sciences.

The ISPRS Foundation depends on individual donations and contributions from ISPRS. Donations may be mailed directly to the TIF Finance Officer, Jeff Yates (General Manager, DAT/EM Systems International, a division of NV5 Geospatial, 2014 Merrill Field Drive, Anchorage, Alaska 99501, USA, e-mail: [jyates@datem.com](mailto:jyates@datem.com)).

### TIF @ CIPA, FLORENCE, ITALY

TIF provided 4 travel grants to students and young professionals from developing countries to attend the Comité International de la Photogrammétrie Architecturale (CIPA) International Symposium 2023 held in Florence, Italy during June 25-30, 2023. The awardees were provided with early-bird student registration by the event organiser. The awardees were invited and awarded the cash and certificate by ISPRS President Dr. Lena Halounová in the first Plenary Session of the Symposium. The awardees have reported in their feedback on the benefits gained by attending this event with special thanks to TIF for their attending event possible.
