

Feedback Report

Dear TIF Committee,

I sincerely thank the TIF for giving me this opportunity to attend this important conference for my study and work. As I am a senior conservator at the Egyptian Museum in Cairo, Egypt. Attending this conference helped me publish part of my doctoral thesis, as I shared with the attendees some of the problems and challenges that I faced in this research. I also enjoyed some of the discussions and solutions that the attendees participated in, which helped me reach new results in the field of preserving the photographic archive. My presence also allowed me to meet a group of researchers who are carrying out a project to preserve the archives of the Egyptian Museum, which opens the way for me to share my experience with them. Once again, I credit the committee for being given this opportunity to share my experience with international researchers.

Sincerely,

Rasha Shaheen
Senior Conservator
Egyptian Museum
Cairo, Egypt
